All records for rainfall with high temperature at this time of year have been broken during the past week. The rain began on Friday, November 28, and fell intermittently for a week the sun only being visible about an hour during the whole time. On Thursday it continued a steady all day down pour with quite a strong northeast wind. The ground is soaked through and through and wheat has been making phenomenal growth for this time of year. It will enter the winter in the best possible condition. The total rainfall for the past week is over five inches.

We notice by the Daily Dispatches that the big American packers have commenced operations in Argentine and Australia as well as in some of the other South American countries, and that one of the big packing firms of this country landed one shipment of beef this week in New York City, of One Thousand Tons. This they are enabled to do since the tariff has been taken off, but the dear people will soon find out that the packers will not lessen the price of beef but will surely put the western farmer down on the price of his cattle for if he doesn't come down they will ship in that much more beef from South American countries.

One of the prettiest weddings of the season was that solemnized at the Haug home northwest of Ransom on Thanksgiving day when Miss Anna Haug was given in marriage to Mr. Francis Montgomery of Lincoln county. The ceremony was beautiful in its quiet simplicity only immediate relatives being present. Large bouquets of cut flowers were used to decorate the parlor and dining rooms, the red and white color scheme being used. The impressive ring ceremony was read by Rev. A. M. Perrill. Following the usual congratulations a sumptuous three-course wedding supper was served. The many friends of this couple join in extending their heartiest congratulations and best wishes which follow them to their new home near Lincoln.—Utica Enterprise.

H. V. ADAMS.

Comes Soon In One of His Popular Lectures.

No one would imagine that H. V. Adams is a preacher from the looks of him. No one would imagine that H. V. Adams is a lawyer from his general habits, yet Mr. Adams is guilty of both of these appellations. He not only carries the load lightly, but we rather suspect he is proud of the first title at least, and the second one helps him out of troubles occasionally without having to turn over all his property to an outsider in part payment. While Mr. Adams has quit "lawyering" in a general way, yet there is hardly a Sunday that goes by that he does not bless some community with a little bit of the best preaching they ever heard.

There is nothing about the cut of the man, there is nothing about the laugh of the man, there is nothing about the optimistic personality of the man, to indicate the type known as "preacher," but this great big world has discovered that a man can be a preacher and be a laughing optimist at the same time. When he lectures he takes the whole audience into his confidence. He toys with them, he buoys them up, he jokes with them, he even fools with them, and everybody goes away blessing Adams for doing it. When he first thought he could lecture the Bureau shied at him, as they usually do at the untied man, but one Bureau, with considerable temerity, took the chance because they thought they saw the gleam of gold beneath the rough. Adams was the "surprise man" in that Bureau for five years. Towns everywhere began to want him, and the Midland Bureau finally succeeded in landing him on a three year contract.
